Dear Governor O'Malley and Members of the General Assembly:

There are thousands of people with developmental disabilities and their families on the DDA Waiting List for community services in Maryland. Many are being denied services and are in crisis situations. The wait must end and cuts to these critical services must .

I sign my name to this petition and call on Governor O'Malley and the Maryland State Legislature to provide funding for DDA Community Services. These individuals with disabilities and their families cannot wait any longer.
